Mission
JANITORIAL & ABRASIVE SUPPLIES

Facial Protection

Impact® Safety Glasses

Wrap around style offers maximum coverage at brow and sides. Lightweight for more comfort. Molded in bridge, easy adjustable temple. Meets ANSI safety standards.

807334

Impact® Safety Goggles

Economical general purpose goggle with polycarbonate lenses featuring side shields for ventilation. Fits over prescription glasses. Protects against splashing or spraying. Meets ANSI safety standards.

807322 7322, 12cs

Impact® Dust Masks

Disposable dust mask protects against nuisance dust and non-toxic particles and powders. Lightweight and comfortable. Not a respirator.

807300 B7300, 12/50pk

Impact® Disposable Face Mask

Spun bonded polypropylene, universal size fits all, 3-layer, pleated face mask with elastic ear loop. Mask is fastened with ultrasound at 2 side edges and features an anti-fog sweat band. Bacterial filtration efficiency (BFR) >97%.

807370*

Impact® Double Eye/Face Wash Station

Durable, plastic station with two 16oz. bottles of saline solution. Wide mouth bottles provide initial flushing for alkali and acid splash. Safety sealed and dated to guard against contamination.

807349 11" w x 13" h x 4" d

STEPS

1. Identify the chemical you are working with.
2. Consult the Material Safety Data Sheet (MSDS) on the chemical.
3. Check the chemical resistance guide for gloves.
4. Determine the physical factors involved in the glove application:
 - dexterity and flexibility
 - resistance to puncture and snags
 - abrasion resistance
5. Determine the needed glove length.
6. Test glove.

MISSION

TIP!

Kimberly-Clark® Protective Apparel

Designed for comfort, protection and savings. Kimberly-Clark® offers specially designed fabrics for several levels of protection. Cloth-like, yet tough and abrasion-resistant. Three different seam types for durability and resistance. Determine what you're up against and select the appropriate garment for the job.

SAFETY EQUIPMENT

Impact® Disposable Bouffant Caps

Spun bonded, soft polypropylene, latex free elastic. Worn in areas where it is necessary to prevent particles from working into products or equipment.

807387WL* 21" large

Athea Sunscreen Wipes

Oil-free and aminobenzoic acid (PABA)-free formula is enriched with Vitamin E to prevent peeling and dryness. SPF 30 provides effective broad spectrum UVA/UVB protection. Will retain SPF for up to 80 minutes of activity in the water, or during heavy perspiration.

801559* 25pk

Justrite® Type I Red Safety Cans

Compliant Type I steel safety cans are designed with a single spout for filling and pouring. The self-closing, leakproof lid controls vapors and provides security from spills and leaks. One gallon features a trigger release handle while larger capacities have a swinging, rounded handle to greatly ease carrying heavier loads.

8010801* 5 gal cap, 11-1/2"x17"

8010501* 2 gal cap, 9-1/2"x13-1/4"

8010301* 1 gal cap, 7-1/4"x11-1/2"

Justrite® White Biohazard Waste Can

Biohazard waste containers meet OSHA 29 CFR 1910.1030 for the segregation of infectious waste. They may be used to store contaminated laundry as well as other regulated waste (not to be used for sharps). Sturdy steel cans feature leakproof construction with foot-operated, self-closing lid. A biohazard bag is held securely around the circumference of the can top.

805910* 6 gal cap, 11-7/8"x15-7/8"

805930* 10 gal cap, 13-15/16"x18-1/4"

Impact® Right to Know Center

Make Material Safety Data Sheets available and accessible. Helps comply with OSHA. Complete with a heavy duty wire basket with attached MSDS binder. Plastic cable attached to center/binder so MSD sheets are not lost.

807920

Safety Containers & Cabinets

Impact® Sharps Container

1 quart size leak proof high-impact plastic, clear lock-tight lid, for disposal of various sharps. Meets OSHA Bloodborne Pathogens Rule 29 CFR 1910.1030. Can be autoclaved or incinerated featuring easily accessible needle remover.

807350*

Justrite® Safety Cabinets

High performance Justrite® safety cabinets are OSHA compliant, meet NFPA Code 30 and are independently tested and approved by FM. Double-wall construction with 1-1/2" insulating air space. Sturdy 18-gauge steel, welded for strength, long life and greater fire protection. Dual 2" vents with flame arresters. Two self closing doors with two adjustable shelves.

8025452* 45 gal cap, 65"x43"x18"

8025602* 60 gal cap, 65"x34"x34"

Mipro Step-On Can

Step-on receptacle provides infection and odor control with hands-free operation. Constructed of heavy gauge steel with baked white enamel finish. Plastic inner liner allows for easy cleaning.

8713200 18 qt

Metal Oily Rag Container

Heavy gauge, rust proof steel for safe temporary storage of oily waste. Passes all flammable rag containment regulations. Features convenient carry handle and safety yellow enamel paint. 16"d x 24"h.

STEPS

Source: Rubbermaid® Commercial Products

1. Keep traffic areas obstacle-free.
2. Keep floors clean and dry.
3. Provide adequate lighting.
4. Don't carry materials that can block your view.
5. Properly mark maintenance and hazardous areas.

Sometimes, despite prevention, accidents do happen. Quick response can often make the difference between an accident and a non-occurrence.

1. Warn of potential hazard.
2. Redirect pedestrians from spill scene.
3. Address and clean the spill with appropriate cleaning materials.
4. Monitor the spill, displaying warnings until area is dry and safe.
5. Document the frequency of spills and determine high risk areas.
