Mission offers a complete solution for the healthcare market. Our liners are manufactured with new technology premium raw materials to insure the ultimate quality. Features include: no splitting when punctured, color coding eliminates errors and convenient dispenser boxes. Call your Sales or Customer Service Representative for a complete list of sizes insuring the right bag for the right application if you do not see what you need listed above.

Low-Density Liners

Mission Linear Low Density Liners (LLDPE)

Industrial standard for typical trash. Tear resistant and stretchable.

Mission #	Size	Color	Gallon	Mils	Case Count	Manufacturer #
101834BK	17x18	Black	4-6gal	.34mil	2000pk	RP117K
102234BR	20x22	Brown	6.5gal	.34mil	1000pk	RP121K

102436BK

Mission Extra Heavy Gauge Liners (LLDPE)

White and light blue thicker films designed to handle that extra tough job.

Mission #	Size	Color	Gallon	Mils	Case Count	Manufacturer #
103711WH	30x37	White	23gal	1.14mil	200pk	TTS636W
106011WH	38x60	White	60gal	1.18mil	100pk	TTS658W
104811WH	40x48	White	44gal	1.15mil	100pk	TTS646W

103711WH

Measuring for correct can liner size:

Bag Width: Use one-half (1/2) of the outer circumference or parameter of the container.

Bag Length: Use the height of the container, plus one-half (1/2) of the diameter (or diagonal) of the container bottom, plus three inches (for the overhang). Mission can liners are made of the highest quality resins: linear-low, super-strength linear low and high-density. This gives Mission users a variety of thinner (more economical, less waste) but stronger bags = "right bag for the job". Star-seal bottom feature ensures against seam breakage and leakage. The tubular, no side-seam construction guarantees maximum overall integrity and bag performance.

MISSION TIP!

The Mission coreless liner system offers these user-friendly features: pigmented and natural bags, fast and easy inventory control, bar-coded labels, true-spec labels, compact roll size, hand-held dispensing, tuck-away dispensing and attachable dispensers. Above all, each can liner carries a 100% manufacturer's guarantee.

Mission liners are manufactured in an ISO Process Certified environment to ensure quality from bag to bag, service from day to day and consistency from year to year.

104815GY 43x48 Grey 56gal 1.5mil 100pk PR48150

Mission Health Care/ Biohazardous Containment Liners (LLDPE)

For use where bio-hazardous waste containment is necessary. Specially designed by RollPak for the healthcare industry. Liners meet all OSHA regulations for hazardous waste containment in areas of isolation and surgical wastes along with pathological, biological and laboratory waste. Printed in both English and Spanish.

102410RD 24x24 Red 7.5gal 1mil 500pk STR1024R (un-printed)

104015RP 33x40 Red 32gal 1.5mil 100pk STX40RP (printed)

Mission Badger Super Strength Liners (LLDPE)

Designed exclusively for Mission Janitorial by RollPak. Badger tough for extra strength.

104086 33x40 Grey 32gal .86mil, 250pk

104898 40x48 Grey 44gal .98mil, 150pk

Mission Industrial Grade Can Liners (High & Low Density)

Traditional "Industrial Grade" can liners offer excellent stretch and strength which prevents bag failures and eliminates zippering or tearing. "Star Seal" bottom features excellent performance while "Ready-Pak" bulk fold allows for one-at-a-time dispensing directing from the box. Contains "Industrial Recycled" resins with Black Max Resins. Excellent choice for most medium to extra heavy disposal applications.

Waste Receptacles

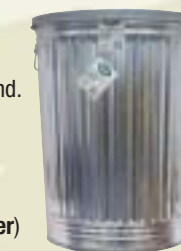

Aluminum & Metal Receptacles

Metal Galvanized Trash Containers

These old favorites are still around. Great for outdoor applications.

870020 20gal

870032 32gal
(use 33 x 39 can liner)

Mipro Step-On Can

Step-on receptacle provides infection and odor control with hands-free operation. Constructed of heavy gauge steel with baked white enamel finish. Plastic inner liner allows for easy cleaning.

8713200* 18qt
(use 24 x 33 can liner)

Metal Oily Rag Container

Heavy gauge, rust proof steel for safe temporary storage of oily waste. Passes all flammable rag containment regulations. Features convenient carry handle and safety yellow enamel paint. 16" d x 24" h.

877900* 15gal

Rubbermaid® Landmark Series™ Steel Containers

Classic look with steel construction comes fully assembled, including panels. Ideal for indoor and outdoor applications. Heavy gauge hot dipped galvanized steel provides corrosion resistance. Stone panels have Class A fire rating. Choose from brown, grey and green frame colors:

873974* Ash/Trash Sand Top, 24gal, 17-1/2"sq x 34-13/16"h

873986* Hinged Dome Top, 29gal, 21"sq x 42-1/16"h

873988* Hinged Dome Top, 48gal, 26-1/4"sq x 43-15/16"h

Justrite® White Biohazard Waste Can

Biohazard waste containers meet OSHA 29 CFR 1910.1030 for the segregation of infectious waste. They may be used to store contaminated laundry as well as other regulated waste (not to be used for sharps). Sturdy steel cans feature leakproof construction with foot-operated, self-closing lid. A biohazard bag is held securely around the circumference of the can top.

805910* 6 gal cap, 11-7/8"x15-7/8"

805930* 10 gal cap, 13-15/16"x18-1/4"
